WE SUPPORT OUR COMMUNITY AND OUR GAME

We are the official charity and community arm of Durham Cricket, dedicated to supporting our communities and growing our game.

Our work is focused around two key objectives: **to ensure recreational cricket in the region thrives** - we act as the governing body of the sport in the region and work with 101 cricket clubs - **and to design programmes around the real needs of the community** - investing in people's futures and creating opportunities that go beyond the game.

Through our initiatives, we reach and impact the lives of thousands of people within the region through the power of cricket.
